**NOTICE OF POTENTIAL ENVIRONMENTAL CONDITIONS**

WHEREAS, Mr. Clemmet Nevels is the owner of record of the real property (referred to as "the Property") located at 2626 Bruce Randolph Avenue, Denver, CO 80205, and more particularly described as follows:

W 25FT OF E 125FT OF L 26 TO 30 INC BLK 11 MCKEES ADD

WHEREAS, **For purposes of indexing in the County Clerk and Recorder's office Grantor-Grantee index only, EPA shall be considered the Grantor, and Clemmet Nevels shall be considered the Grantee.** Nothing in this Notice shall be construed to create or transfer any right, title or interest in the Property.

WHEREAS, the Property is within the boundaries of Operable Unit 1 of the Vasquez Boulevard and Interstate 70 Superfund Site (Site), as described in the Record of Decision (ROD) signed by the United States Environmental Protection Agency (EPA) on September 25, 2003. The ROD established cleanup objectives for lead and arsenic in residential soils to protect human health and prevent unacceptable exposures to adults and children.

WHEREAS, the EPA has prepared and recorded this Notice of Potential Environmental Conditions ("Notice") to disclose specific potential environmental conditions of the Property to subsequent owners of the Property.

NOW, THEREFORE, NOTICE is hereby given that, as of the date of this Notice, the EPA has not obtained soil samples from the above described Property.

The EPA obtained soil samples from over 4000 residential properties within the Site. Of this total, over 800 properties showed levels of lead and/or arsenic contamination that could present unacceptable risk to or make the property unsafe for children or adults. The levels at which the EPA determined that lead and/or arsenic in soil present an unacceptable risk (the so-called "action levels" in the ROD) were 400 parts per million (ppm) or greater for lead and 70 ppm or greater for arsenic.

As of the date of this Notice, the owner of the Property has not consented to EPA accessing and sampling the Property. The owner of the Property has been provided written notice of and the opportunity to comment on the Notice and the filing of this Notice by certified mail.

The EPA's records regarding the Property and the Site, may be requested by contacting:
